

Skyward Family Access is a Web-based component of Skyward, our student information system. Access to Skyward Family Access will enable parents/guardians to take an unprecedented and much more proactive role in their student's education. This access is secure due to a unique user name and password.

With this system you will have access to the following information on your student(s):

- **Student Demographic Information** - View general information and emergency contact information to make sure everything is up to date in our database records.
- **Student Grade Book Information** - View student's current grades***, missing assignments, and teacher comments.
- **Message Center** - View messages from your student's teachers to you and the ability to reply back on a one-to-one basis.
- **Student Attendance** - View every absence or tardy recorded for the student in an easy to use calendar format.
- **Student Schedules** - View the student's schedule as well as teacher and contact information for each class.

***** Current grades** - There are many factors that determine how soon a teacher can assess and return assignments. Essays and research papers take longer to grade than a quiz or daily work. Coaching, club sponsorships, and family commitments can also affect turnaround time, as well as a teacher's student load. We urge students and parents to be patient as teachers do their best to return assignments and post grades as promptly as their schedule allows.
